

## AAUW 2021 STEM Summer Institute Scholarship Application

The Manhattan Branch of the American Association of University Women (AAUW) is providing two full scholarships for 7<sup>th</sup> grade girls in the Manhattan-Ogden USD 383 School District to attend the 2021 STEM Summer Institute. The institute was started in 2011 as a result of a competitive grant from the Department of Defense Education through the collaborative efforts of the KSU College of Education and USD 383. It is designed to raise student achievement levels and increase enrollments in science, technology, engineering, and mathematics classes.

AAUW is a premiere nationwide organization that promotes equity and education for women and girls. We are very excited to encourage more girls to select STEM careers.

To apply for AAUW STEM Summer Institute Scholarship, please fill out the following form and essay. **Return application to the counseling office at your school by March 23.** A member of the AAUW Manhattan Branch will collect them from your school’s counseling office.

If you want more information about our organization, please visit the website at <http://manhattan-ks.aauw.net/>.

Applications should be **legible, filled out completely & turned in by March 23 to be considered.**
